## BookSta.sh

### Proprietor

**Booksta.sh** is a site for book discovery, currently hosting over a million books. Booksta.sh is a side project which has allowed me to try out new ideas and explore aspects of the creative process that I have not been a part of before. I'm very proud of it and I hope you'll take a look at it.

## HarperCollins Publisher

### Senior Web Developer

May 2010 - April 2015

I was a senior PHP developer for HarperCollins ETG (Emerging Technologies Group). Past projects include **BourdainMediumRaw.com** (Cake), Photocontest.FancyNancy.com, (Cake) and Inkpop.com (Drupal), AuthorConnect (Symfony2). I built an internal book catalog website "**TitleKey**" which provides access to eBooks for HarperCollins and New International employees (Symfony 2). I also created the **Browse Inside** book preview tool which is embedded in Harpercollins.com.

## Random House Incorporated

### Senior Program Analyst, Web Development

November 1997 - May 2010 I was the lead programmer for Random House's corporate web site (RandomHouse.com) and other sites, and I share responsible for system administration and internal projects. Development in PHP, (Wordpress MU) Perl, JavaScript and database design in Informix, Oracle, and MySQL with Memcached. I implemented the current RandomHouse.com web design in table-free CSS/HTML. I also had a hand in System Administration and monitoring with AWStats and Munin.

## Digital Exchange (DX.com)

### Web Developer / System Administrator / Digital Pre-Press Specialist

March 1993 to November 1997

I Started at D/X as a Pre-press Specialist but I transitioned to web developement in 1996. Early work included a number of small web sites (**ilford.com**, **dx.com**).

## Sam Flax Computer Services

### Computer Technician / Digital Pre-Press Specialist

March 1992 - March 1993

My responsibilities included maintaining a small network of Macintosh computers, assisting users, and outputting files printers which were at the time considered novel. In addition, I maintained a First Class bulletin board by which customers could submit files electronically.
